# H-ISAC Hobby Exercise 2021– Call for Participants

The Hobby Exercise is an annual Healthcare and Public Health (HPH) event designed to engage the sector and its partners on significant security and resilience challenges to inform improvements to planning and response. The second iteration of the Hobby Exercise is scheduled for November 2, 2021 at Venable LLP in Washington, DC. We anticipate 30-50 participants, in person, from the public and private sector. This all-day exercise features keynote speakers, large group discussion, breakout room discussions, lunch, and ample breaks to network. The exercise will be held at [TLP Amber](#) to facilitate open discussion on these important matters.

**Participant details:** An inclusive, holistic, multi-disciplinary approach provides value to this exercise, and we are looking for diverse representation across the sector. This diversity extends to organization type (e.g., MDM, HDO, etc.), role (e.g., IT/Security, HR, Legal, Comms, etc.), and individual experience level

**Purpose:** The Hobby Exercise educates participants on the issues within healthcare and how H-ISAC and its members can, and are, addressing them. This exercise builds enduring relationships within and across the public and private sector that help to strengthen understanding, response, and recovery plans and activities.

## Seats are filling up, sign up today!

To participate in the Hobby Exercise or learn more, please email [contact@h-isac.org](mailto:contact@h-isac.org).

## HEALTH-ISAC UPDATE - MEMBER SERVICES

### NEW COMMUNITY SERVICE FOR MEMBERS—SAFEGUARD CYBER

Health-ISAC recently partnered with SafeGuard Cyber and its security and risk management platform as a resource for members to protect and govern digital communications, including collaboration, chat, and social media.

*As part of H-ISAC's Community Services Program, SafeGuard Cyber is offering members a 16-month license for the standard annual license fee of 12 months.*

See the **Community Services web page** for more information: <https://h-isac.org/community-services/>

### H-ISAC is a proud Champion Since 2017!

CYBERSECURITY AWARENESS MONTH

For Cyber Security Awareness Month 2021, Health-ISAC will share tips throughout October.

Health-ISAC's Chief Security Officer, Errol Weiss, shares tips for "Staying Safe On-Line" in this video. He simplifies some favorite online safety advice into two basics:

- 1) Multi-Factor Authentication and
- 2) keeping software up to date.

Check out the video here and feel free to share it with others! **Link to Video:**
