# Health-ISAC's First Annual Report 2021

Health-ISAC is proud to champion the wonderful work done by Health-ISAC and its sharing Community in 2021, showcased in this inaugural annual report.

The report captures how Health-ISAC connected Members and the Healthcare Sector in 2021 to vital threat intelligence and each other through tools, services, events and peer-to-peer sharing.

In March, Health-ISAC staff and selected Members participated in Cyber Storm VIII.

This US National Level Exercise (NLE), sponsored by the Cybersecurity and Infrastructure Security Agency (CISA), centered around an escalating core scenario affecting Industrial Control Systems (ICS) and allowed participants to exercise incident response plans and identify improvement opportunities for coordination and information sharing.

IRELAND CYBERSECURITY WORKSHOP

Health ISAC recently held a workshop in Cork, Ireland hosted by McKesson and sponsored by Armis on March 10th, 2022. Over 30 attendees valued the rich content and discussion. Topics included the cyber talent pipeline in Ireland, the current geopolitical situation in Eastern Europe, threat detection, cyber awareness programs, shared responsibility for medical device security and a briefing on the Irish National Health incident.

Following the workshop, attendees enjoyed conversation and camaraderie at a local restaurant. The next European workshop will be held in mid-June in London.

CYBER THREAT LANDSCAPE—Executive Summary

Last month, Health-ISAC promised the public summary would be coming and **Here it is!**
