Spring Americas Summit Highlights

The Summit had near record attendance, with attendees coming from 10 countries. Registered attendees can **access the recordings** by logging into the Summit Platform via your computer (link https://cvent.me/YBXkEz) and press the "Replay" button to watch the recordings in the schedule.

Attendee feedback:
- *Keynote, Geoffrey Ling, was great, sessions well selected and relevant; and the best part, as always, networking with peers*
- *Happy to see secure software development in our regulated industry in sessions*
- *Great opportunities to meet and network with other security professionals*

LARGE LANGUAGE MODELS - CHATGPT

The Threat Operations Center held a TOC Spotlight Webinar on May 23 in the first of a mini-series for members on Large Language Models (LLMs) including ChatGPT. The first session -- a primer on LLMs -- featured Heather Lane of athenahealth. Attended by more than 200 members. (*playback link in member portal.*)

The last week of June, Health-ISAC will hold the second TOC Spotlight mini-series with a panel discussion on LLM cyber security issues and for July, we're pulling together a session on governance and policy issues under consideration due to LLMs.

Look for updates about the June and July TOC Spotlight webinars coming soon in member announcements.
