## MASTERS of DECEPTION

**NH-ISAC Spring Summit** **May 8 -10, 2017**

### NH-ISAC's Spring Summit Keynote Speaker Announced!

#### Mark McClellan, M.D.

Mark McClellan, MD, PhD, is the Robert J. Margolis Professor of Business, Medicine, and Policy, and director of the Duke-Margolis Center for Health Policy at Duke University. McClellan is a doctor and an economist whose work has addressed a wide range of strategies and policy reforms to improve healthcare, including payment reforms to promote better outcomes and lower costs, methods for development and use of real-world evidence, and approaches for more effective drug and device innovation.

McClellan is a former administrator of the Centers for Medicare & Medicaid Services (CMS) and former commissioner of the U.S. Food and Drug Administration (FDA), where

he developed and implemented major reforms in health policy. McClellan has served as a member of the President's Council of Economic Advisors and as Deputy Assistant Secretary of the Treasury for Economic Policy. He was also a senior fellow at the Brookings Institution and a professor of economics and medicine at Stanford University where he directed the Program on Health Outcomes Research.

## NH-ISAC at HIMSS17

NH-ISAC hosted a pre-conference symposium at HIMSS on February 19th in Orlando. The all-day event centered on medical device security and information sharing. There was very interactive dialogue and engagement in the room amongst almost 150 attendees.

Speakers included Michael McNeil, Royal Phillips, Denise Anderson, NH-ISAC, Dr. Dale Nordenburg, MD MDISS, Marty Edwards, Department of Homeland Security Industrial Control System Computer Emergency Response Team (ICS-CERT), Seth Carmody, FDA, Phil Englert, Catholic Health, Steve Abrahamson, GE, Purna Prasad, Northwell Health, and Bill Hagestad, Smith Medical.

In addition to the Symposium, NH-ISAC also had two other presentations: The Next Frontier in Medical Device Security, featuring Dr. Dale Nordenburg, MD, MDISS and Denise Anderson, NH-ISAC, and The Mechanics of Cyber Threat Information Sharing featuring Julie Connolly, MITRE and Denise Anderson NH-ISAC.

The sessions sparked a lot of interest and conversation and both featured collaboration and community focused on sharing — in the first case; the medical device stakeholder community and in the second; the machine to machine environment. Several other NH-ISAC members presented at HIMSS. For a full schedule of sessions go to:
