

## Health-ISAC Announces New Board for 2022

*Health Information Sharing and Analysis Center (H-ISAC) is pleased to announce the results of its 2021 Board of Directors election.*

**Ormond Beach, Florida. November 10, 2021**—Health Information Sharing and Analysis Center (H-ISAC), a global, [member](#)-driven non-profit that is the health and public health (HPH) sector’s trusted community for sharing cyber and physical security information, announced the results of its recently held Board elections.

The H-ISAC [Board](#) of Directors serves in a voluntary capacity to provide strategic governance and direction for the H-ISAC community based upon their experience and expertise as security leaders in healthcare organizations within the Health and Public Health (HPH) sector. The Board members reflect a diverse mix of healthcare delivery stakeholders in various subsectors of the industry. Directors generally serve a 3-year term.

“We are excited to welcome our three new Board members as well as our returning incumbent members, and we extend our thanks and deep appreciation to outgoing Board Members Pete Naumovski (AbbVie, Inc.) and Colleen McMahon (Viatris, Inc.) for their significant contributions and years of service to H-ISAC.”, says Denise Anderson, H-ISAC President and CEO. “I look forward to working with the Board to continue the success and growth of our wonderful and vital community.”

### **ABOUT HEALTH-ISAC**

H-ISAC is a global, non-profit, member-driven organization where health sector stakeholders join a trusted community and forum for coordinating, collaborating, and sharing vital physical and cyber threat intelligence and best practices with each other.

Membership is open to public & private hospitals, ambulatory providers, health insurance payers, pharmaceutical/biotech manufacturers, laboratory, diagnostic, medical device manufacturers, medical schools, medical R&D organizations, and other relevant health sector stakeholders.

H-ISAC partners with other global security organizations such as governments, law enforcement, other ISACs, and global CERTs to share information, create situational awareness and mitigate against threats and incidents.

Member organizations become stronger by working together, benefitting the entire health sector and its significant role in critical infrastructure worldwide.
